The Marlin Camper Difference

At Marlin Campers you choose how your camper is built. Follow our 3 step guide and design your perfect camper.

Step 1, Choose the size of tent you need.

With a range of 8 different models you can choose from the smaller 2 person Marlin Cruisers to the mid size Marlin Escapes and up to the larger Family Marlin Explorers.

Once you know how much room you need then we look at the trailer to get you to your favourite camping spots.

Step2, Choose the trailer to take you down the roads you need to go.

Whether its On Road, Off Road or a combination of the 2. All Marlin Trailers are custom made to match your exact needs.

Step 3, Choose your set up.

What style of Kitchen do you like to use? How do you prefer to carry your water? Do you need a power supply? and what camping gear do you already have? These are the items that add THOUSANDS to the price of your camper. Instead of starting with all of them, We will discuss how you camp and recommend the right inclusions for you. This is why our camper trailers are Australia's most affordable option.

WE ONLY ADD WHAT YOU NEED!!

You will find the following camper trailers on display.

Marlin Cruiser,

This 2 person Camper is set up in under 2 minutes and can be towed by any car with a tow bar.

RRP \$4250
